

By joining us for a day of golf, you are helping to provide some of what our children need—all proceeds from this year's tournament will be dedicated to our Partial Hospitalization Program (PHP). This program plays a crucial role in mental health treatment by providing comprehensive care to clients who do not require inpatient hospitalization. This mental health treatment provides our children with a pathway to improved quality of life.

Through our programs, we have seen the lives of many children changed for the better, particularly their physical and mental health.

*Please consider sponsoring our tournament to support our services provided to children in need.*

Know that your support and generosity is helping us make a difference in these young lives.

LIFE CHANGING MEDICINE

## ***39th Annual Memorial Golf Tournament Sponsors***

Our annual Golf Tournament is one of two fundraisers we do each year to support our care and services provided for our children...the other being our Red Stocking Fund Drive at Christmas.

Your Sponsorship helps offset the Tournament expenses which allows us to use all proceeds directly for the children.

Our children are facing increasingly complex and challenging issues. Cost of care, like most things, continues to rise. Our mission to provide quality care to children in need depends on the generous support of friends, friends like you.

Please consider a Sponsorship Donation to support our children and the care provided to them.

Thank You!
